BOLOGNA

WE WORK FOR YOUR BUSINESS

BENVENUTI NELLA GRANDE CITTÀ DEL COMMERCIO.

Centergross è il più prestigioso distretto europeo per il commercio, riconosciuto a livello internazionale per l'eccellenza di prodotti Made in Italy. Dinamismo, efficienza e flessibilità sono le peculiarità di questo polo economico, nato a Bologna nel 1977. L'obiettivo è offrire a clienti e visitatori servizi di qualità, concentrati funzionalmente in un'unica estesa area privata di oltre 1 milione di mq, 400.000 mq di aree espositive e 100.000 mq di uffici. Con 683 aziende e circa 6.000 addetti impiegati al proprio interno, il Distretto registra un volume complessivo di affari di circa 5 miliardi di euro provenienti non solo dall'Italia, ma anche da Europa, Asia, Medio-Oriente e America. Centinaia di aziende specializzate in tecnologia, meccanica, logistica, farmaceutica e numerosi altri servizi si aggiungono a quelle del comparto moda, che rappresenta circa l'80 % del volume complessivo d'affari. Al Centergross, buyers, negozi indipendenti e boutiques possono finalmente incontrare i fornitori ideali per ottimizzare i loro processi d'acquisto, per trovare assortimenti economici e veloci, scoprire le tendenze e gli stili più innovativi che influenzano il mondo della moda. Ma non solo: il Distretto è situato in una posizione strategica alle porte di Bologna, nel cuore pulsante della packaging valley, della motor valley e della food valley italiane. Facilmente raggiungibile in auto, grazie ad un'uscita autostradale dedicata, il Centergross beneficia dei collegamenti internazionali offerti dall'Aeroporto G. Marconi di Bologna e con i nuovi treni dell'Alta Velocità Frecciarossa e Italo è raggiungibile da Milano in un'ora, da Firenze in 35 minuti, da Venezia in un'ora e 15 minuti. L'area è servita da taxi, autobus e treni locali. Centergross è un modello esemplare di integrazione ed efficienza commerciale e distributiva, costruito sulle basi di una passione comune a tutti i fondatori e a tutti i successivi operatori del Distretto. Questo il suo punto di forza.

WELCOME TO THE GREAT WORLD OF COMMERCE.

Centergross is the most prestigious European trading district and is recognised worldwide for the excellence of products made in Italy. Dynamism, efficiency and flexibility are the distinguishing characteristics of this economic hub, which was founded in Bologna in 1977. Our mission is to provide clients and visitors with high-quality services, conveniently concentrated in a single, vast, private area of over one million square metres, 400,000 m² of display space and 100,000 m² of offices. With 683 businesses and approximately 6000 people working here, the District boasts a total annual turnover of approximately 5 billion euros, from within Italy and from Europe, Asia, the Middle East and America. Hundreds of businesses specialising in technology, mechanics, logistics, pharmaceuticals and a great many other services can be found here, alongside those working in the fashion sector, which account for approximately 80% of the current turnover. At Centergross, buyers, independent stores and boutiques can finally meet the suppliers best suited to optimising their purchasing process, find affordable and fast stock and discover the most innovative trends and styles influencing the world of fashion. In addition, the District occupies a strategic position just outside Bologna, in the vibrant heart of Italy's Packaging Valley, Motor Valley and Food Valley. Easily accessible by car, thanks to a dedicated motorway turnoff, Centergross also benefits from the international connections provided by Bologna's G. Marconi Airport and the Frecciarossa and Italo high-speed train services means that it is just one hour from Milan, 35 minutes from Florence and 1 hours from Venice. The area is also well connected by taxi, bus and local train services. Centergross is a shining example of sales and distribution integration and efficiency, built on the foundations of a passion that is common to all its founders and the sector professionals that work within the District. This is its strong point.
